REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As to independent claim 1, "each air injector capable of being independently controlled to eject gas", in combination with the other claimed elements and features in not taught nor fairly suggested by the prior art of record.

As to independent claim 4, "a plurality of first air injectors fixedly connected with sensing head" and "a plurality of second air injectors fixedly connected with the sensing head", in combination with the other claimed elements and features in not taught nor fairly suggested by the prior art of record.

2. Prior art

Matsuoka et al. teaches that air injectors are adjustable and controllable, but Matsuoka et al. does not disclose a teaching of that each air injector is independently controlled. The air injectors of Matsuoka et al. are controlled as a set and not individually. Also Matsuoka et al., which can be seen in figure 12 that the first set of air injectors and the second set of air injectors are not fixedly connected to a sensing head. The set of air injectors are each connected to different yokes, below and above a work bench.

Takcas et al. discloses an optical sensing head and feedback features. The Takcas et al. patent does not disclose the deficiencies in the Matsuoka et al. patent.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
